

ABOUT FLBM

The Finger Lakes Boating Museum exists for the education, preservation, & celebration of the boating activities and boat building heritage of the Finger Lakes.

Founded in 1996, a small group of dedicated antique boating enthusiasts were motivated by a common concern of the rapidly dwindling appreciation & awareness of locally-built wooden boats.

Because of generous donors like you, we have the privilege of teaching youth and adults alike through our numerous programs and events. Whether it's in the woodshop, the classroom, or onboard our flagship the Pat II, FLBM is a valuable community resource that serves to educate, inspire, and unite people around a shared love of boating and maritime history. The Museum's impact on the community is immeasurable, and its continued success is a testament to the importance of this unique and enduring aspect of Finger Lakes history.
